

Features

- 8mm travel
- $\pm 2\%$ independent linearity
- 100,000 long life cycle
- Custom options available

Applications

Linear position sensing for short-travel applications, such as automotive seat position detection, headlamp position adjustment, and coffee machines.

Potentiometer Specification

Operating Temperature	-40°C to +105°C
Operating Force	200g max.
Total Resistance	5K, 10K Ω
Total Resistance Tolerance	$\pm 20\%$
Resistance Taper	Linear curve
Insulation Resistance	100M Ω min.
Slide Travel	8 mm
Life Cycle	100,000

How to order
